Research Interest

With a background in applied mathematics, network science, and complex systems, I study the effects of environmental, social, and ecological conditions on infectious diseases. I develop mathematical models and computational tools to advance surveillance, forecasting, and control of seasonal and emerging infectious agents. My recent studies focus on respiratory viruses and antimicrobial-resistant pathogens in healthcare systems. I also apply methods in complex systems and network science to address broad scientific questions in health.

Academic Appointments

Assistant Professor

DEPARTMENT OF ENVIRONMENTAL HEALTH SCIENCES, MAILMAN SCHOOL OF PUBLIC HEALTH, COLUMBIA UNIVERSITY

New York City, USA

Aug 2021 – present

Associate Research Scientist

DEPARTMENT OF ENVIRONMENTAL HEALTH SCIENCES, MAILMAN SCHOOL OF PUBLIC HEALTH, COLUMBIA UNIVERSITY

New York City, USA

Dec 2018 – Jul 2021

- Research: Data-driven statistical inference and forecast of infectious disease outbreaks

Post-doctoral Research Scientist

DEPARTMENT OF ENVIRONMENTAL HEALTH SCIENCES, MAILMAN SCHOOL OF PUBLIC HEALTH, COLUMBIA UNIVERSITY

New York City, USA

Dec 2015 – Nov 2018

- Research: Mathematical modeling and real-time forecast of infectious disease spread
- Advisor: Prof. Jeffrey Shaman

Administrative Titles

Director, Environmental Health Data Science MS Program

DEPARTMENT OF ENVIRONMENTAL HEALTH SCIENCES, MAILMAN SCHOOL OF PUBLIC HEALTH, COLUMBIA UNIVERSITY

New York City, USA

Aug 2024 – present

Education

Ph.D. in Mathematics

SCHOOL OF MATHEMATICS AND SYSTEMS SCIENCE, BEIHANG UNIVERSITY

Beijing, China

Sep 2010 – July 2015

- Research: Dynamical modeling and empirical study of spreading processes in networks
- Advisor: Prof. Zhiming Zheng

Visiting Ph.D. Student

LEVICH INSTITUTE AND PHYSICS DEPARTMENT, CITY COLLEGE OF NEW YORK

New York City, USA

Sep 2012 – Dec 2013

- Research: Searching for superspreaders in spreading dynamics
- Advisor: Prof. Hernán A Makse

B.S. in Mathematics

SCHOOL OF MATHEMATICS AND SYSTEMS SCIENCE, BEIHANG UNIVERSITY

Beijing, China

Sep 2006 – Jun 2010

- Research: One-dimensional chaotic dynamical systems

Publication

Adhikari, B., Srivastava, A., **Pei, S.**, Kefayati, S., Yu, R., Yadav, A., Rodríguez, A., Ramanathan, A., Vullikanti, A., Prakash, B.A. The 4th International Workshop on Epidemiology meets Data Mining and Knowledge Discovery (epiDAMIK 4.0 @ KDD2021). *Proceedings of the 27th ACM SIGKDD Conference on Knowledge Discovery & Data Mining* 4104-4105 (2021).

BOOK CHAPTER

99. **Pei, S.**, Morone, F., Makse, H. A. Theories for influencer identification in complex networks. In *Complex Spreading Phenomena in Social Systems*, p.p. 125-148, edited by Sune Lehmann and Yong-Yeol Ahn (Springer Nature, 2018).

BOOK REVIEW

100. **Pei, S.** Review of Vaccines and Immunization by Chuanxi Fu (editor-in-chief). *Human Vaccines, Immunotherapeutics* (2020). DOI: 10.1080/21645515.2020.1835337.

Grants

2023	R21, Inference of heterogeneous transmission of antimicrobial resistant pathogens in health care settings. PI, 2023-2025	NIAID
2023	Cooperative Agreement, Modeling and forecast of COVID-19 and RSV to inform public health decision making. PI, 2023-2024	CSTE & CDC
2022	Impact of climate variability on foreign animal disease: forecasting highly pathogenic avian influenza. PI, 2022-2023	USDA
2022	Human behavior-driven mathematical modeling and forecasting of respiratory disease transmission in urban settings. PI, 2022-2026	NSF & CDC CFA
2022	Cooperative Agreement, Modeling and forecast of COVID-19 at state and county scales. PI, 2021-2023	CSTE & CDC
2021	R01, Quantifying Error Growth to Improve Infectious Disease Forecast Accuracy. Co-I, 2021-2026	NIAID
2020	U01 Supplement, Analysis and simulation of bacterial infections and resource strain in hospitals during the COVID-19 pandemic. MPI, 2020-2022	CDC
2020	U01, Inference, forecasting and optimal control of healthcare-associated infections. MPI, 2020-2025	CDC
2020	Calderone Junior Faculty Award, Identifying asymptomatic colonization with antibiotic-resistant pathogens in hospital settings, PI, 2019-2020	Mailman School of Public Health
2020	Columbia Public Health Innovation Fund, Integrating healthcare data and mathematical models to track antimicrobial resistant pathogens in hospitals, MPI, 2019-2020	Mailman School of Public Health

Awards

2021	Fellow, Scialog: Mitigating Zoonotic Threats	Research Corporation for Science Advancement (RCSA)
2021	Finalist of 2020 AAAS Newcomb Cleveland Prize (7 finalists from all disciplines)	AAAS

2020	Calderone Junior Faculty Award	<i>Mailman School of Public Health</i>
2019	First Prize in Scientific Achievement Category, Awards for Outstanding Research Articles in Biosurveillance	<i>International Society for Disease Surveillance</i>
2016	Outstanding Doctoral Thesis Award	<i>Beihang University</i>
2015	Ph.D. Graduate Excellence Awards (10 winners university-wide)	<i>Beihang University</i>
2014	National Ph.D. Scholarship	<i>Ministry of Education</i>
2009	Gold Medal Award for Undergraduate (10 winners university-wide)	<i>Beihang University</i>
2009	First Prize in “Challenge Cup” National Undergraduate Academic Competition	<i>Ministry of Education</i>

Academic Services

EDITORIAL ACTIVITIES

- Guest Editor, PLoS Neglected Tropical Diseases, 2023 – 2024
- Guest Editor for Special Issue “Mathematical Models and Computational Tools of Infectious Diseases” in Mathematical Biosciences and Engineering (American Institute of Mathematical Sciences). 2022 – 2023
- Associate Editor: Microbiology Spectrum (American Society for Microbiology), May 2022 – present
- Associate Editor: Frontiers in Physics, May 2022 – present
- Associate Editor: BMC Infectious Diseases, September 2019 – present
- Review Editor: Frontiers in Physics, June 2018 – May 2022
- Guest Associate Editor: Frontiers, Research Topic: Mathematical modelling of the pandemic of 2019 novel coronavirus (COVID-19): Patterns, Dynamics, Prediction, and Control, 2020

COMMITTEE

- Career MODE Application Review Committee, Columbia EHS, 2024
- Career MODE Application Review Committee, Columbia EHS, 2023
- Dissertation Committee for Emma Gorin, Columbia EHS, 2022
- Dissertation Committee for Stephen Lewandowski, Columbia EHS, 2022
- Career MODE Application Review Committee, Columbia EHS, 2022

PROFESSIONAL MEMBERSHIP

- Models of Infectious Disease Agent Study (MIDAS), 2019 – present
- Modeling Infectious Diseases in Healthcare Network (MInD - Healthcare), 2020 – present
- Institute for Operations Research and the Management Sciences (INFORMS), 2022 – 2023
- National Syndromic Surveillance Program Community of Practice (NSSP CoP), 2019 – present
- International Society for Disease Surveillance (ISDS), 2018 – 2019

PROFESSIONAL ACTIVITIES

- FluSight real-time influenza forecasting challenges, CDC, 2016 – 2017, 2017 – 2018, 2018 – 2019, 2019 – 2020, 2021 – 2022, 2022 – 2023, 2023 – 2024
- FluCode, Informing Pandemic Influenza Intervention Practice: Coordinated Modeling, CDC, 2019 – 2020
- Columbia projection of COVID-19 spread in the United States, 2020 – 2023

PEER REVIEW

Science, PNAS, Nature Communications, Nature Human Behaviour, Nature Medicine, Nature Computational Science, Nature Machine Intelligence, The Lancet Planetary Health, The Lancet Digital Health, BMC Medicine, American Journal of Epidemiology, American Journal of Public Health, ACM Transactions on Computing for Healthcare, Biological Psychiatry: Cognitive Neuroscience and Neuroimaging, BMC Bioinformatics, BMC Infectious Diseases, BMJ Open, Bulletin of Mathematical Biology, Chaos: An Interdisciplinary Journal of Nonlinear Science, China CDC Weekly, Communications Biology, Communications Medicine, Communications Physics, Disaster Medicine and Public Health Preparedness, Ecology Letters, eLife, Emerging Infectious Diseases, Engineering, Entropy, Environmental Research, Epidemics, Europhysics Letters, Frontiers in Physics, Frontiers in Public Health, Global Environmental Change, Health and Technology, Health Affairs, Human Vaccines & Immunotherapeutics, Infectious Diseases of Poverty, Infection, Genetics and Evolution, International Journal for Uncertainty Quantification, International Journal of Environmental Research and Public Health, IEEE Access, IEEE Transactions on Control Systems Technology, IEEE Transactions on Cybernetics, IEEE Transactions on Network Science and Engineering, JAMA Network Open, Journal of Computational Science, Journal of Infectious Diseases, Journal of Mathematical Biology, Journal of Mathematical Research with Applications, Journal of Statistical Mechanics: Theory and Experiments, Journal of Systems and Information Technology, Journal of Travel Medicine, Meteorological Applications, Mathematical Biosciences and Engineering, Physica A: Statistical Mechanics and its Applications, Physica D: Nonlinear Phenomena, Physics Letters A, PLoS Computational Biology, PLoS Neglected Tropical Diseases, PLoS ONE, PLoS Pathogens, PNAS Nexus, Scientific Reports, Trends in Microbiology, Wellcome Open Research

PROGRAM COMMITTEE

- Program Committee Member, 6th Annual Learning for Dynamics & Control Conference (L4DC 2024), University of Oxford, London, UK, July 15-17, 2024.
- Program Committee Member, Annual Modeling and Simulation Conference (ANNSIM 2024), American University, Washington DC, USA, May 20-23, 2024.
- Session Chair, COVID-19 I session, EPIDEMICS 9, Bologna, Italy, November 29, 2023.
- Program Committee Co-Chair, The 6th International workshop on Epidemiology meets Data Mining and Knowledge discovery (epiDAMIK 6.0), in conjunction with the 2023 ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (ACM SIGKDD 2023), Long Beach, CA, USA, August 7, 2023.
- Program Committee Co-Chair, The 5th International workshop on Epidemiology meets Data Mining and Knowledge discovery (epiDAMIK 5.0), in conjunction with the 2022 ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (ACM SIGKDD 2022), Washington DC, USA, August 15, 2022.
- Program Committee Co-Chair, The 4th International workshop on Epidemiology meets Data Mining and Knowledge discovery (epiDAMIK 4.0), in conjunction with the 2021 ACM SIGKDD International Conference on Knowledge Discovery & Data Mining (ACM SIGKDD 2021). Online.
- The SI 2021 Workshop on Social Influence, The Hague, Netherlands, 8th November 2021, in conjunction with the 2021 IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM 2021).
- The SI 2019 Workshop on Social Influence, Vancouver, Canada, 27th August 2019, in conjunction with the 2019 IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM 2019).
- The SI 2018 Workshop on Social Influence, Barcelona, Spain, 28th August 2018, in conjunction with the 2018 IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM 2018).
- The 3rd Workshop on Social Influence, Sydney, Australia, July 2017, in conjunction with the 2017 IEEE/ACM International Conference on Advances in Social Networks Analysis and Mining (ASONAM 2017).

GRANT REVIEW

- Review panel, Division of Mathematical Sciences, NSF, 2024 July
- Ad hoc reviewer, Science for Africa Foundation, 2024
- Review panel, Division of Mathematical Sciences, NSF, 2024 May
- Review panel, Division of Mathematical Sciences, NSF, 2024 April
- Review panel, NIAID Data Science and Emerging Technologies (R21, U01), NIH, 2022
- Review panel, Division of Behavioral & Cognitive Sciences, NSF, 2022
- Secondary Data Analysis Projects, Health Research Board, Republic of Ireland, 2021
- Review panel, MIDAS COVID-19 Modeling Urgent Grant Program – New Initiatives, 2020

PANELS AND FELLOWS

- Core participant, NSF PRedicting Emergence Of Virulent Entities By Novel Technologies (PREVENT) Seminar, February 22-23, 2021 (online)
- Fellow, USDA & Research Corporation for Science Advancement, Mitigating Zoonotic Threats, September 30-October 1, 2021 (online)

Public Outreach

PRESS INQUIRY AND INTERVIEW

- The New York Times, Wall Street Journal, CNN, NPR, Bloomberg News, BuzzFeed News, Chicago Tribune, WIRED, POLITICO, Slate, MIT Technology Review, ABC News, Scientific American, The Scientist, National Geographic, USA TODAY Network, Communications of the ACM, WebMD, FiveThirtyEight, ProPublica, Live Science, Milwaukee Journal Sentinel, Tufts Daily, The Times-Picayune, Breathe at Berkeley, El Mercurio Chile, MedPage Today, HealthDay, Courthouse News

FEATURED MEDIA COVERAGE

- Nature's Research Highlights, A simulation exposes the secret spread of hospital infections. September 9, 2021.
- NIH Director's Blog, COVID-19 Infected Many More Americans in 2020 than Official Tallies Show. September 7, 2021.
- The New York Times, Lockdown Delays Cost at Least 36,000 Lives, Data Show. May 22, 2020.
- The New York Times, Coronavirus Could Overwhelm U.S. Without Urgent Action, Estimates Say. March 20, 2020.
- MIT Technology Review, The Emerging Science of Superspreaders (And How to Tell If You're One Of Them). May 13, 2014.

Invited Talks

- 2024 *Inference of asymptomatic carriers of antimicrobial-resistant organisms using multimodal observations.* Modeling Infectious Diseases in Healthcare (MInD - Healthcare) Network meeting, July 9th, 2024. (Online)
- 2024 *Behavior-driven forecasts of neighborhood-level COVID-19 spread in New York City.* CSTE All Sites Call, May 21st, 2024. (Online)
- 2024 *Use of foot-traffic data in public health research.* EHS Department Seminar, Mailman School of Public Health, Columbia University, April 29th, 2024.
- 2024 *Bayesian inference in networked systems and applications in infectious disease modeling.* Workshop on Forecasting Heuristics, Frankfurt School of Finance & Management, February 19th, 2024. (Online)
- 2024 *Data challenge in AI/ML for climate and infectious disease research.* Data Science for Public Health Summit, Mailman School of Public Health, Columbia University, January 11th, 2024.
- 2023 *Use modeling to improve surveillance of antimicrobial resistance (AMR) in hospital settings.* Transatlantic Taskforce on Antimicrobial Resistance (TATFAR) in-person meeting, Luxembourg, November 15th, 2023.
- 2023 *Inference of asymptomatic carriers of antimicrobial-resistant organisms in healthcare settings using multitype observations.* Modeling Infectious Diseases in Healthcare (MInD - Healthcare) Network meeting, June 27th, 2023. (Online)
- 2023 *Modeling spatial transmission of infectious diseases.* "Unifying the epidemiological and evolutionary dynamics of pathogens" workshop, Nordic Institute for Theoretical Physics (NORDITA), Stockholm University, Stockholm, Sweden, May 30th, 2023.
- 2023 *Bayesian inference in networked systems and applications in infectious disease modeling.* STAT@UVM Seminar Series, University of Vermont, May 1st 2023.
- 2023 *Impact of the COVID-19 Pandemic on Influenza.* Biomedical Data Science Virtual Lectures, University of Virginia, April 28th 2023. (Online)
- 2023 *Data-driven mathematical modeling of respiratory diseases.* Human Behavior and Disease Dynamics workshop, University of Maryland, April 24th 2023.
- 2023 *Challenges in Forecasting Antimicrobial Resistance.* Transatlantic Taskforce on Antimicrobial Resistance (TATFAR) meeting, March 27th 2023. (Online)
- 2022 *Contact tracing and transmission of SARS-CoV-2 in New York City.* P30 Joint Environmental Science call, The NIEHS Center for Environmental Health and Justice in Northern Manhattan, December 13th 2022. (Online)
- 2022 *Data-driven mathematical modeling of the spatial spread of respiratory diseases.* The 2nd International Symposium on Spatial Lifecourse Health, Wuhan University, Wuhan, China, December 10th 2022. (Online)

- 2022 *Identifying Asymptomatic Spreaders of Antimicrobial Resistant Pathogens in Hospital Settings*. 2022 INFORMS annual meeting, Indianapolis, IN, USA, October 16th 2022.
- 2022 *Identifying asymptomatic spreaders in complex networks with sparse observations*. The Statistical Inference for Network Models workshop, NetSci 2022, July 12th 2022. (Online)
- 2022 *Data-driven mathematical modeling of infectious diseases*. The first symposium of Urban Informatics, The Hong Kong Polytechnic University, June 22nd 2022. (Online)
- 2022 *Real-time Forecasting of Infectious Disease Spread*. Department of Statistics and Data Science, Southern University of Science and Technology, April 13th 2022. (Online)
- 2022 *Modeling, inference and forecasting of the spatial transmission of respiratory pathogens*. GeoHealth Hub Seminar Series, organized by Geography Department, National University of Singapore, April 8th 2022. (Online)
- 2022 *Data-driven modeling and inference of infectious disease dynamics*. Department of Computer Science, Texas Tech University, January 18th 2022. (Online)
- 2021 *Advancing forecast, surveillance and control of infectious disease*. Eco-epidemiology Lab, Department of Ecology, Evolution, and Environmental Biology, Columbia University, November 23rd 2021.
- 2021 *Data-driven modeling and inference of infectious disease dynamics*. Michtom School of Computer Science, Brandeis University, November 19th 2021. (Online)
- 2021 *Reconstructing transmission networks of COVID-19 in New York City using contact tracing data*. SurvEpi Forward Planning, New York City Department of Health & Mental Hygiene, November 4th 2021. (Online)
- 2021 *Role of meteorological factors in the transmission of SARS-CoV-2 in the United States*. HMS Lecture Series, Department of Health Metrics Sciences, University of Washington, October 22nd 2021. (Online)
- 2021 *Open Data Access for Social Good: Responding to COVID-19 with Spatial Data Science* Data Science Connect, October 22nd 2021. (Online, jointly with Niki Kazahaya and Serina Chang)
- 2021 *Understanding the transmission dynamics of SARS-CoV-2 using mathematical models*. Virtual COVID-19 Symposium, Columbia University, October 20th 2021. (Online)
- 2021 *Parameter inference and identification of asymptomatic carriers of antimicrobial-resistant pathogens in hospital settings*. University of California San Francisco MInD group meeting, July 8th 2021. (Online)
- 2021 *Parameter inference and identification of asymptomatic carriers of antimicrobial-resistant pathogens in hospital settings*. Transatlantic Taskforce on Antimicrobial Resistance (TATFAR) meeting, May 26th 2021. (Online)
- 2021 *Forecasting infectious disease spread*. School of Public Health, Zhejiang Chinese Medical University, China, April 22nd 2021. (Online)
- 2021 *Transmission dynamics of COVID-19 in China and the United States*. The Pathogen Dynamics Group Seminar Series, University of Cambridge, UK, March 12th 2021. (Online)
- 2021 *Advancing forecast, surveillance and control of infectious disease*. Department of Biology, University of Notre Dame, Indiana, USA, February 4th 2021. (Online)
- 2021 *Identifying asymptomatic spreaders of MRSA in hospital settings*. Modeling Infectious Diseases in Healthcare (MInD - Healthcare) Network meeting, January 25th 2021. (Online)
- 2020 *Advancing forecast, surveillance and control of infectious disease*. EHS Department Seminar, Columbia University, New York, USA, November 2nd 2020. (Online)
- 2020 *Forecasting COVID-19 spread in the US*. The CDC COVID-19 forecasting meeting, June 9th 2020. (Online)
- 2020 *Modeling and projecting COVID-19 transmission using geolocation data*. Geolocation Economics, Columbia University, New York, USA, May 4th 2020. (Online)

- 2020 *Modeling the transmission dynamics of COVID-19 in China and US.* Dalian University of Technology, Dalian, China, April 21st 2020. (Online)
- 2020 *Modeling the transmission dynamics of COVID-19 in China and US.* Renmin University of China, Beijing, China, March 30th 2020. (Online)
- 2019 *Utilizing big data to track outbreaks of antimicrobial resistant pathogens.* Presidential Advisory Council on Combating Antibiotic-Resistant Bacteria (PACCARB) Public Meeting, McLean, Virginia, USA, July 10th 2019.
- 2019 *Inference and control of the nosocomial transmission of Methicillin-resistant Staphylococcus aureus.* SPHINx19: Spread of Pathogens in Healthcare Institutions and Networks: a modeling conference, Paris, France, June 24th 2019.
- 2019 *Forecasting the spatial transmission of influenza in the United States.* ISDS (International Society for Disease Surveillance) 2019 Annual Conference, presentation as the First Prize in Scientific Achievement Category, Awards for Outstanding Research Articles in Biosurveillance, San Diego, California, USA, January 31st 2019.
- 2017 *Forecast and inference of infectious disease spread using network models.* EHS Department Seminar, Columbia University, New York, USA, November 20th 2017.
- 2017 *Finding influential spreaders in cascading processes in complex networks.* Dalian University of Technology, Dalian, China, June 16th 2017.
- 2015 *Empirical studies on information spreading in online social networks.* Hangzhou Normal University, Hangzhou, China, July 6th 2015.

Conferences

- 2024 *Behavior-driven forecasts of neighborhood-level COVID-19 spread using foot-traffic data.* NetSci 2024, Quebec City, Canada, June 19th, 2024. (Poster Session)
- 2023 *Inference of asymptomatic carriers of antimicrobial-resistant organisms in healthcare settings using multitype observations.* EPIDEMICS 9, Bologna, Italy, November 30th, 2023.
- 2023 *Inference of asymptomatic carriers of antimicrobial-resistant organisms in healthcare settings using multitype observations.* MIDAS annual meeting, Atlanta, GA, October 30th, 2023.
- 2023 *Modeling neighborhood-level COVID-19 spread in New York City using foot-traffic data.* CSTE in-person meeting, Atlanta, GA, September 19th, 2023. (Poster Session)
- 2023 *Ensemble inference of unobserved infections in networks using partial observations.* NetSci 2023, Vienna, Austria, July 12th, 2023.
- 2022 *Contact tracing reveals community transmission of COVID-19 in New York City.* 2022 MIDAS Network Annual Meeting, Bethesda, MD, USA, September 8th, 2022. (Poster Session)
- 2022 *Identifying asymptomatic spreaders of antimicrobial-resistant pathogens in hospital settings.* Ecology and Evolution of Infectious Diseases (EEID) 2022, Atlanta, GA, USA, June 7th, 2022. (Poster Session)
- 2021 *Identifying asymptomatic spreaders of antimicrobial-resistant pathogens in hospital settings.* Epidemics8 - 8th International Conference on Infectious Disease Dynamics, November 30th, 2021. (Online)
- 2021 *Identifying asymptomatic spreaders of antimicrobial-resistant pathogens in hospital settings.* Networks 2021: A Joint Sunbelt and NetSci Conference, July 8th, 2021. (Online)
- 2021 *Optimizing respiratory virus surveillance networks using uncertainty propagation.* SIAM Conference on Applied Linear Algebra (LA21), Latest Advances in Spectral Linear Algebra in Network Science, May 20th, 2021. (Online)
- 2021 *Identifying asymptomatic carriers of antimicrobial-resistant pathogens in hospital settings.* 2021 MIDAS Network Annual Meeting, May 10th, 2021. (Online)
- 2020 *Real-time projection of COVID-19 in the United States.* COVID-19 Dynamics & Evolution Conference, October 19th, 2020. (Online)

- 2020 *Identifying asymptomatic colonization with antimicrobial-resistant pathogens in hospital settings.* New York City Epidemiology Forum, New York, NY, USA, February 28th, 2020. (Poster Session)
- 2019 *Optimizing respiratory virus surveillance networks using uncertainty propagation.* Epidemics7 the seventh International Conference on Infectious Disease Dynamics, Charleston, SC, USA, December 5th, 2019.
- 2019 *Forecasting influenza-like-illness by aggregating predictions for multiple respiratory pathogens.* Epidemics7 the seventh International Conference on Infectious Disease Dynamics, Charleston, SC, USA, December 5th, 2019. (Poster Session)
- 2019 *Stochastic Progression Forecasting for Alzheimer’s and Parkinson’s Diseases.*, Modeling the World’s Systems 2019, Washington DC, USA, May 12th, 2019. (Poster Session)
- 2018 *Inference of the nosocomial transmission dynamics of Methicillin-resistant Staphylococcus aureus.* NIH-MIDAS (Models of Infectious Disease Agent Study) 2018 Annual Meeting, Bethesda, MD, USA, April 4th, 2018.
- 2017 *Forecasting the spatial spread of influenza in the United States.* Epidemics6 the sixth International Conference on Infectious Disease Dynamics, Sitges, Spain, November 29th, 2017.
- 2017 *Forecasting the spatial transmission of influenza.* NIH-MIDAS (Models of Infectious Disease Agent Study) 2017 Annual Meeting, Atlanta, Georgia, USA, May 23rd, 2017.
- 2016 *Improving influenza forecast by counteracting structural errors.* Joint Statistical Meeting 2016, Chicago, Illinois, USA, August 4th, 2016.
- 2016 *Improving influenza forecast by counteracting structural errors.* NIH-MIDAS (Models of Infectious Disease Agent Study) 2016 Annual Meeting, Reston, Virginia, USA, May 23rd, 2016. (Poster Session)
- 2014 *Searching for superspreaders of information in real-world social media.* 2014 International Conference of Mathematics, Information and Computational Science, Beijing, China, October 21st, 2014.
- 2013 *Heterogeneity of human activity levels gives rise to power-law distribution in online social networks.* American Physical Society (APS) March Meeting, Baltimore, Maryland, USA, March 19th, 2013.
- 2010 *The dynamics of a class of one-dimensional chaotic maps.* The 15th WSEAS International Conference on Applied Mathematics, Athens, Greece, December 31st, 2010.

Teaching

COURSES

- 2024 Spring, EHSCP6351 Introduction to Network Science, Columbia University
- 2022 Spring, EHSCP9370 Journal Club, Department of Environmental Health Science, Columbia University

GUEST LECTURES

- 2024, P8322 Environmental Determinants of Health II, Introduction to infectious disease modeling (February 1st 2024), Department of Environmental Health Sciences, Columbia University
- 2023, P8322 Environmental Determinants of Health II, Introduction to infectious disease modeling (March 9th 2023), Department of Environmental Health Sciences, Columbia University
- 2023, E3B GU4127 Disease Ecology, Modeling spatial spread of respiratory pathogens (February 6th 2023), Department of Ecology, Evolution and Environmental Biology, Columbia University
- 2022, P8322 Environmental Determinants of Health II, Introduction to infectious disease modeling (March 3rd 2022), Department of Environmental Health Sciences, Columbia University
- 2022, E3B GU4127 Disease Ecology, Spatial spread of COVID-19 (February 7th 2022), Department of Ecology, Evolution and Environmental Biology, Columbia University
- 2021, Understanding the transmission dynamics of SARS-CoV-2 using mathematical models (October 20th 2021), Icahn School of Medicine at Mount Sinai
- 2020, Modeling COVID-19: Fighting the COVID-19 Pandemic Using Mathematical Models (September 23rd 2020, online), Icahn School of Medicine at Mount Sinai
- 2020, Summer course: COVID-19 from Virus to Vaccine: Biological, Clinical, and Public Health Dimensions; Virtual Lab: tutorials on mathematical models. (August 25th 2020, online), Mailman School of Public Health, Columbia University
- 2017, Inference of the nosocomial transmission of Methicillin-resistant Staphylococcus aureus (December 11th 2017), School of International and Public Affairs, Columbia University

Mentoring

Postdocs

- 2023 Qing Yao, Postdoctoral Research Scientist, Department of Environmental Health Sciences, Mailman School of Public Health, Columbia University. *Human behavior and epidemic modeling.*

Doctoral Students

- 2022 Han Yong Wunrow, PhD Candidate, Applied Mathematics, Columbia University. *Mathematical modeling of infectious diseases.*
- 2018 Rafael Bomfim, PhD Candidate, Graduate Program in Applied Computing, University of Fortaleza, Brazil. *Predicting dengue outbreaks at neighborhood level using human mobility in urban areas.* Published in Journal of the Royal Society Interface.

Master Students

- 2024 Meng Fang, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Human mobility and climate change-related natural disasters.*
- 2023 Yan Wang, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Quantifying information flow between biomarkers.*
- 2023 Wanxin Qi, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Visualization and analysis of highly pathogenic avian influenza data in the US.*
- 2022 Eric Wang, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Built environment and transmission of COVID-19 in New York City.*
- 2022 Wenjun Mo, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Human mobility pattern in New York City.*
- 2022 Sze Pui Tsang, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Quantifying information flow between biomarkers.*
- 2022 Kaiyu He, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Evaluating response rate to COVID-19 contact tracing interviews in New York City.*
- 2021 Saryu Patel, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Analyzing contact network structure in hospital settings.*
- 2020 Helen Zhang, MPH student, Department of Epidemiology, Mailman School of Public Health, Columbia University. *Thesis project: Exploratory Analysis of the Characteristics of COVID-19 in the United States using Public Line-list Data.*
- 2020 Yuchen Qi, MS student, Department of Biostatistics, Mailman School of Public Health, Columbia University. *Practicum project: Quantifying the impact of COVID-19 non-pharmaceutical interventions on influenza transmission in the United States.* Published in The Journal of Infectious Diseases.

Undergraduates

- 2023 Young Seo Lee, Undergraduate, Computer Science, Columbia University. *Analyzing human mobility pattern in the US.*

- 2022 Katherine Dai, Undergraduate, Molecular, Cellular, & Developmental Biology and Economics, Yale University; incoming Master's in Modeling for Global Health, University of Oxford. *Analyzing contact tracing data in New York City during Delta wave.*
- 2022 Alex Bala, Undergraduate, Computer Science and Mathematics, Columbia University. *Modeling and identifying interactions of respiratory viruses.*
- 2022 Michal Hajlasz, Undergraduate, Computer Science and Mathematics, Columbia University. *Predictability of human mobility in the US.*
